

Diane Whitehouse

Diane is an eHealth expert with the European Health Telematics Association (EHTEL) <http://www.ehtel.org>. She is currently involved with the Momentum and Engaged thematic networks, <http://www.telemedicine-momentum.eu> and <http://www.engaged-innovation.eu>.

She has contributed to EHTELConnect's series of peer review and study visits to e.g., Denmark and Finland <http://www.ehtel.org/ehotelconnect/ehotelconnect>. Diane has eight years in applied practical experience of European policy development at the European Commission (Brussels) in the domains of eHealth and eAccessibility. Earlier, Diane worked in such areas as action research, civic and human rights, publishing, and academia (studying at the London Business School, and teaching/researching at the London School of Economics and Political Science in organisational theory and behaviour). More generally, Diane leads the International Federation for Information Processing's work on ICT and Society by chairing its technical committee 9 <http://ifiptc9.csir.co.za/index.html>'s and its working group 9.2 on social accountability and computing <http://www.ifipwg92.org>.
