

## **Jos Vloesman**

Since 1983 Jos Vloemans is affiliated with the Burns Centre of the Red Cross Hospital in Beverwijk as a burn doctor and medical manager.

In his daily practice he is involved in all aspects of burn wound care. As over 40% of the patients is under 17 years of age, he has a special interest in wound care in paediatric patients. He participates in clinical trials on burn wound management such as the application of dermal matrices and new local therapeutics.

In April 2013 he completed his Ph.D. with a thesis entitled: "Aspects of Burn Wound Care in Children". He is reviewer of "BURNS" and chairman of the Dutch "Foundation Children and Burns".
