

Natividad Romero Haro
DEBRA Spain nurse

Having finished nursing school in 2008 at the Escuela Universitaria Francisco Maldonado in Osuna (Sevilla), she later obtains the *Expert in Chronic Wound Care* qualification.

In 2008 she joins DEBRA Spain where she is now responsible of the nursing department. The nursing department provides information and training to people with EB and their carers through projects such as home visits, respite home for EB and hospital consultations.

As a specialized nurse in EB, Nati also provides training on EB and it's complications to professionals from the National Health System as well as to professionals from the Spanish National Reference Centre for Rare diseases. In charge of the EB National Forum for Professionals, she also represents DEBRA Spain in national international events.
