

EWMA 2014 Electronic-poster guidelines

What is an E-poster?

An E-poster is an electronic poster displayed on computer screens instead of printed on paper as a traditional poster.

Please review the e-posters online for ideas which may be helpful in designing your presentation (see: <http://ewma.org/english/ewma-conferences/conference-abstracts/2013/2013-electronic-poster-abstract.html>)

What formats can I use?

Accepted formats are only a PDF document.

Are there any limitations to the size of my E-poster?

Maximum 5 pages can be uploaded.

A4 size sheet and vertical orientation has to be used.

You can include the logo of the congress and conference title in the document, without being too visible. Please note, that the header and footer of Congress are already included on the screen where the posters will be displayed.

How is my poster being displayed?

All E-posters will be displayed during the entire conference in the E-poster area in the exhibition hall. The E-posters will be displayed on user friendly multi media touch screens available for E-posters only. Multiple E-posters will be available on each screen.

Besides being displayed onsite during the conference, all E-posters will be made available for viewing on the conference website up to one month after the conference if accepted by the presenting author.

Search criteria

The E-posters can be looked up by poster number, title, category or presenting author name.

How can I upload my poster?

E-posters should be uploaded before the conference.

Pre-upload must be done via a special link that you will receive by email from the conference secretariat before 15 April. Only authors with a confirmed registration for EWMA-GNEAUPP 2014 will receive the email that contains your unique ID-number.

Upload must be completed by May 10th 2014

If you have not received an email with your special link please contact the EWMA secretariat ASAP.
