

SYMPOSIUM ON VETERINARY WOUND MANAGEMENT AND ANTIMICROBIAL RESISTANCE

Wound care in the *One Health* Perspective

Final Programme 01/05/2014

TIME AND PLACE

EWMA-GNEAUPP Conference 2014
Wednesday 14 May 2014
13:00 PM – 17:00 PM

PROGRAM

Session 1

13:00 – 14:15

Animal Wound Care - Best practice and new knowledge

Chairs: Michael Braun & Loni Loftus

1. *Welcome*
Dr. Dylan Gorvy BSc BVSc PhD CertES (Soft Tissue) Dipl. ECVS
VWHA President
European Specialist in Equine Surgery
Mälaren Hästklinik, Sweden
2. *Equine wounds as model for human wound care: similarities and differences*
Dr. Jacintha M. Wilmink
DVM, PhD, Dipl RNVA
'Woumarec' Wageningen, The Netherlands
3. *The Importance of Debridement in Equine Wound Care*
- *Overview of methods and best practice examples*
Dr. Dylan Gorvy BSc BVSc PhD CertES (Soft Tissue) Dipl. ECVS
VWHA President
European Specialist in Equine Surgery
Mälaren Hästklinik, Sweden
4. *'Tested on Humans' – Human products and their transition to veterinary use. Commercial and clinical considerations for their use on companion animals.*
- *Is this a new market or a dead duck?*
Georgie Hollis BSc
Intelligent Wound Care and The Veterinary Wound Library, UK

Session 2

14:20 – 15:00

Free Paper Session

Chairs: Michael Braun & Jacintha M Wilmink

Session 3

15.30 – 17.00

A One Health Approach to Antimicrobial Use & Resistance

Chairs: Ingeborg M. van Geijlswijk & Jørgen Schlundt

Antimicrobial resistance leads to 25,000 deaths and €1,500 millions in losses each year in Europe. VWHA and EWMA support the one health approach to facing the challenge.

1. *DANMAP surveillance program. Monitoring of antibiotic use and resistance development in human and veterinary medicine in Denmark*
Dr. Jørgen Schlundt, DVM, PhD,
Director, National Food Institute, Denmark
2. *Swedish veterinary guidelines on the prevention of antibiotic resistance*
Dr. Ulrika Grönlund, DVM, PhD
Senior lecturer, Swedish University of Agricultural Sciences, Sweden
3. *Use of antibiotics in production animals - Changes of the past decade*
Dr. Hetty van Beers, DVM, PhD
Director of the Veterinary Medicine Authority, SDa, The Netherlands
4. *Antimicrobial drug consumption and antimicrobial resistance connected: European surveillance programs in man and Dutch monitoring studies in companion animals.*
Dr. Ingeborg M. van Geijlswijk, PharmD, PhD,
Director of pharmacy, Faculty of Veterinary Medicine, Utrecht University, The Netherlands
5. *Principles and structure of the guidelines for the prudent use of antibacterial veterinary pharmaceuticals in Germany in the face of zoonotic multi-drug resistant pathogens: an intersectional perspective*
Dr. Birgit Walther, DVM, PhD
Head of consiliar laboratory for nosocomial infections at the Institute of Microbiology and Epizootics, Centre for Infection Medicine, Freie Universität Berlin, Germany
