Dear Sponsors

The first international course on managing the diabetic foot, organised by the Diabetic Foot Clinic at the University Hospital of Pisa, was held in 2009. This was a great success, with delighted participants from all over the world.

The international courses are based on the expertise gathered from more than ten consecutive years of providing national courses and on the knowledge and the unique structure of treatment offered by the specialised diabetic foot clinic at the University Hospital of Pisa, established in 1989.

The course is held in Pisa, Italy, and offers a combination of theory and practical training in the clinic within four days.

With the combination of lectures from different specialists and training in the clinic, course participants will gain insight into the field's theory and the practical methods used. The individual training covers all the areas of interest related to the modern clinical approach to the diabetic foot, including instrumental diagnosis, revascularisation, surgery, and rehabilitation.

The course will also focus on the treatment structure and guidelines for establishing a diabetic foot clinic. It reaches out to clinicians, hospital departments, and clinic management.

A secondary aim of the course is to facilitate European consensus on the structure of treatment of the diabetic foot and to raise political awareness of the challenges related to the treatment and prevention of the diabetic foot.

In this document, you will find information about how your company can get involved in international courses on managing the diabetic foot.

Hopefully, you will find the information you need. If you have any questions, please let us know.

We look forward to hearing from you.

Kind regards,

Prof. Alberto Piaggese

A handwritten signature in black ink, appearing to read 'A. Piaggese', with a large, sweeping loop at the top and a long, horizontal stroke at the bottom.

Faculty

The faculty consists of international experts and local specialists to ensure high quality in both the theoretical and practical sessions of the courses.

The current international faculty includes:

Vilma Urbancic-Rovan, Slovenia
MD, PhD specialist in internal medicine
University Medical Centre Ljubljana, Zaloska

Javier Aragón Sánchez, Spain
Department of Surgery and Diabetic Foot Unit
La Paloma Hospital Las Palmas de Gran Canaria

Alexandra Marques, Portugal
PhD in Materials Science & Technology
3B's Research Group, University of Minho, Portugal

Frances Game, United Kingdom
Consultant Diabetologist and Director of R&D, Royal Derby Hospital,
University Hospitals of Derby and Burton NHS FT

Kirsi Isoherranen, Finland (CV)
Specialist in Dermatology, HUS Helsinki Wound Healing Centre

Edgar J.G. Peters, The Netherlands
MD, PhD, Internist-Infectious Diseases and Acute Medicine Specialist

Bulent M. Ertugrul, Turkey (CV)
Geda Diabetic Foot and Wound Care Clinic, Izmir-Turkey

Nina Petrova, United Kingdom
King's College Hospital, London

Along with the international faculty, the Course has a solid Italian faculty, so any company interested in the Italian market will get additional benefits from sponsoring the course.

Please follow this link to see who they are. [Faculty members 2023](#)

The 2024 faculty will be announced in April / May 2024.

ENDORSEMENTS

The Pisa International Diabetic Foot Courses are endorsed by the European Wound Management Association (EWMA) and supported by the International Working Group on Diabetic Foot (IWGDF).

About the course

Participants

The Course is open to anyone involved in the treatment or management of diabetic foot patients, and the primary target groups are:

- ◆ Clinicians with various professions - e.g., endocrinologists, vascular and orthopaedic surgeons, specialised nurses, chiropodists, or podiatrists
- ◆ Newly appointed managers interested in developing the treatment structure within the diabetic foot area.
- ◆ Other healthcare professionals

Important note: Industry representatives can only attend if they sponsor the course.

Course objectives

The main objectives of the Pisa International Diabetic Foot Courses are to:

- ◆ Increase operative skills and knowledge in the management of the diabetic foot.
- ◆ Facilitate consensus on the structure of treatment.
- ◆ (How to establish diabetic foot clinics/departments, qualification of staff and structure of treatment)

- ◆ Create political awareness of the challenges of treating and preventing diabetic foot ulcers.

Course Programme

The 4-day course programme gives participants a thorough theoretical and practical introduction to all aspects of the diagnosis, management, and treatment of the diabetic foot, including the following elements:

- ◆ Pathogenesis and clinical presentation
- ◆ Systemic aspects of the diabetic foot
- ◆ Lesions
- ◆ Charcot neuroarthropathy management
- ◆ Diagnostic approach
- ◆ Imaging
- ◆ Revascularisation
- ◆ Therapy – medical, surgical, rehabilitative
- ◆ Health Economy of the Diabetic Foot
- ◆ The diabetic foot clinic – structure
- ◆ and establishment

The lectures accord with the International Consensus on the Diabetic Foot & Practical Guidelines on the Management and Prevention of Diabetic Foot.

The programme from the 2023 course can be found on the course website:

www.diabeticfootcourses.org

Sponsorship opportunities

Platinum Sponsorship (2 available)

15,000 EUR

- 2 complimentary course participants (minimum 1 clinician).
- 60-minute symposium (Thursday or Friday).
- Right to enlist an additional 2 participants for the course with a 20% reduction on course fee (Minimum 1 clinician).
- Right to one annual meeting with the course organisation.
- Evaluations and feedback from the course participants.
- One insert in the course material.
- Profiling as a Platinum sponsor on the course website and in the course material.

Gold Sponsorship

10,000 EUR

- New Technologies Workshop.
- 2 complimentary registrations (minimum 1 clinician).
- Evaluations and feedback from the course participants.
- One insert in the course material.
- Profiling as a sponsor on the course website and in the course material.

Silver Sponsorship

7,500 EUR

- 2 complimentary registrations (minimum 1 clinician).
- Evaluations and feedback from the course participants.
- One insert in the course material.
- Profiling as a sponsor on the course website and in course material.

New Technology Workshop - Description of the format:

We are setting aside 45 minutes in the course programme. In this session, we divide participants into 4 groups to ensure maximum interaction and rotate them between 4 practical sessions of 10-12 minutes each.

We offer this opportunity to companies to showcase their device or product and its use in a practical setting. The focus should be on the procedure and the unique value that your device adds.

There will only be an opportunity for 4 companies to join, so we invite the interested companies to act early and reserve a spot.

The session is chaired by Prof. Alberto Piaggese, who also introduces the technology (advance briefing by the company where necessary).

Other sponsor opportunities

Focus Group (Duration 60 min.) 10,000 EUR

Focus groups give companies a chance to ask experts/key opinion leaders their opinions in a closed forum and are interesting for companies who:

- Are about to launch a new product.
- Are new to the European market and need feedback on their existing products.
- Are established in general wound care but need more knowledge about DFU treatment.
- Would like to establish contact with key opinion leaders.
- Are interested in feedback on products or clinical studies.

A focus group at the Diabetic Foot Course has the advantage that you do not need to fly in and accommodate a group of 8-10 persons, as all key opinion leaders are present. This makes the focus group cost-effective for getting feedback and promoting your product to crucial opinion leaders. Each focus group is designed and agreed upon individually.

Insert in course materials

1,000 EUR

The Uniqueness of the PISA Course

The course has run for 14 years and is **unmatched in content, faculty, and the scientific level**. Despite the relatively high price for participants, it is full year after year.

Theoretical and practical sessions. Each day is divided into morning lectures at the hotel and afternoon practical sessions at the hospital (5 min. walk).

Deep dive into all topics and aspects of diabetic foot management, including the set-up of a multidisciplinary diabetic foot clinic, etc.

Excellent networking opportunity. Sponsors become part of the community and are privy to the latest discussions.
